

**Drone for Humans.
Technology that means progress**

WIRE STRINGING DRONE

Technical Specification :

Net Weight (Without Payload)
26.5 kg

Payload
Servo Release mechanism

Max Take-off Weight
46 kg

Propeller Details
36 Inch

No of axes
4 axis

Endurance
20 - 25 mins

Power Type
Electric Power

Maximum Range
10 km

Motor Power Rating
100 KV

Flying Speed
1 - 10 m/s

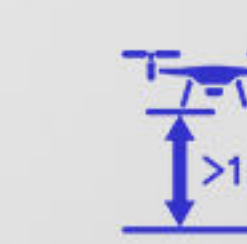

Battery Capacity
50.4V & 88000 mAh

Flying Radius
0 - 1000 m

Payload Capacity
8 kg

Flying Height
0 - 30 m

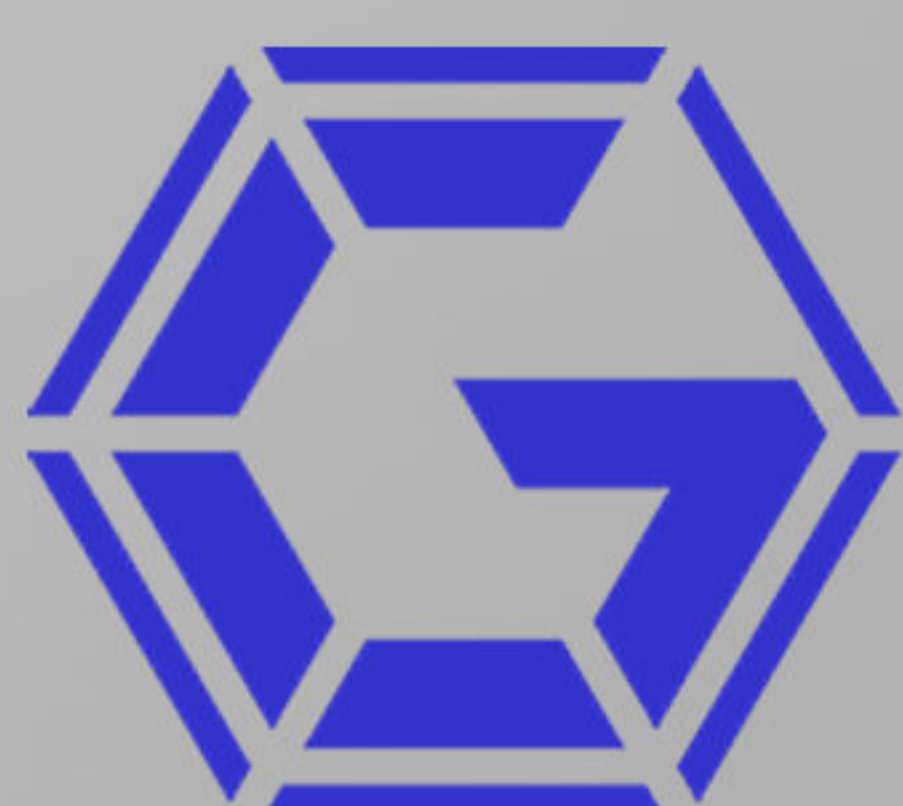

Applications :

Drones Change
Power Line Stringing

Dron Stringing Transmission Line

Garuda
aerospace
